**Example of configuration type HTC1W-5V-DB……… T+RH+CO2 measurement with additional DS18B20 temperature sensor**

1 …… humidity measured by sensor SHT31-   RH [%] = -12,5+125*(VAD/VDD)

2 …… concentration CO2 -   CO2 [ppm] = 1250*VAD

3 ……. temperature measured by sensor DS2438

4 ……. temperature measured by sensor DS18B20
