

Our company offers a wide range of products that are suitable for indoor applications with high demands on aesthetic design. Such requirements are met by components such as home installation company ABB (eg alpha Exclusive, Solo, Element) LEGRAND (eg Valena, Galea), BTicino (eg Light Tech, Axolute) MOELLER (eg Original, Mysterious) SCHNEIDER ELECTRIC (eg UNICA series, MERTEN) and others. Adding a resistive sensor and circuit board with terminal creates a compact unit that is designed to be mounting on a standard wall box into the wall. Sensors can be supplied in any color according to the current color stencil domestic manufacturers installation materials. They are used in all common control systems that use sensor types listed in the report. In addition to these measuring resistive elements can be custom deliver other types of sensing elements such as sensors KTY, Dallas, SMT 160-30, NTC etc.

Technická data

Measuring range	-30 ÷ 70 °C
Connection	2 (on request 3 or 4) wiring
Accuracy	třída B, IEC 751 (Pt100, Pt1000) třída B, DIN 43760 (Ni1000, Ni10000, Ni891, Ni2226) ± 1 °C (NTC20kΩ)
Insulation resistance	> 100 MΩ při 25 °C (500 VDC)
Protection type	IP50(ČSN EN 60529)
Terminal board	CPP, max. průřez vodičů 1 mm ²

List of available types:

ABB	Tango, alpha exklusive, Time, Element, Solo, Impuls, Swing, Future linear, Neo
LEGRAND	Galea, Valena, Cariva, Céliane
BTicino	Light, Light Tech, Living, Axolute
SHNEIDER ELECTRIC	Unica Basic, Unica Colors, Unica Top, Unica Quadro, Unica Plus, Merten Artec, Merten Antique, M-Plan, M-Smart, M-Star
EATON (Moeller (Niko)	Originál, Intense, Pure
EFAPEL	Logus90
GIRA	Systém 55, E22
VIMAR	Plana, Idea, Eikon
OBZOR	Elegant, Variant, Decente
Jung	A500, AS500, CD500, LS990, Flat

Temperature elements: Pt100, Pt500, Pt1000, Ni1000/6180ppm, Ni1000/5000ppm, Ni891, Ni2226. Ni10000/6180ppm, NTC20kΩ

Method of ordering: State the type of temperature element and design in your order eg. Ni1000/6180ppm, design UNICA COLORS, blind cover Polar, Frame Champagne
